

TRACK EVERY TASK in a fraction of the time.

Labor consumes 50%-60% of your budget. Where's the money going? Effortlessly manage and track crews, jobs and budgets with taskTracker's digital work board. Bye-bye whiteboard.

Designed for superintendents and golf pros ...

but every area of the operation reaps the ROI.

SUPERINTENDENTS

Identify your most efficient employees, pinpoint waste and redundancies, justify budgets and budget increases.

GOLF PROS

See where labor is used and gain better control over shifts and schedules; consistently cover key areas (starters, pro shop, lessons, etc.).

GENERAL MANAGERS

Monitor daily operations — staff, key activities, etc. — from any location whether you are on-site or on vacation.

EMPLOYEES

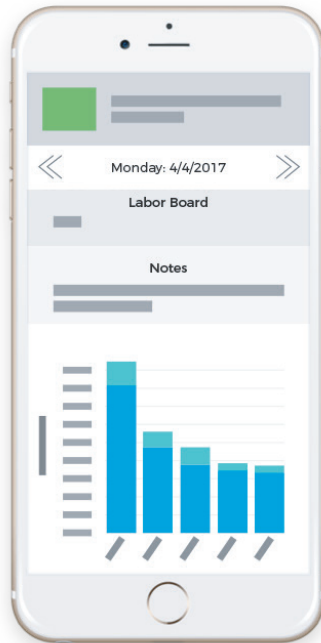

View schedule from any location, view clock-in history to recognize patterns of tardiness, communicate scheduling conflicts and time off requests.

CONTROLLERS

Track variances in your largest line item — labor, create more accurate budgets and more accurately forecast year-to-year.

F&B

Sync calendars for upcoming events and communicate scheduling changes in real time with all employees (servers, bartenders, etc.).

Rich features to maximize tight budgets

Simple to use, taskTracker is packed with functionality. A golf pro and superintendent designed it to be friendly and familiar, even for those who avoid technology.

Do-it-all Dashboard

Your entire operation is at your fingertips. Assign the full day's tasks for every employee in a fraction of the time.

Crystal Clear Communication

Synced calendars, real-time message alerts and task notes keep everyone on the same page and up to date.

Control From Anywhere

The cloud-based app can be accessed from anywhere, anytime. Set, change and monitor tasks in real time.

One-Touch Reporting

Output detailed labor and expense reports for the day, yesterday, months ago with just a few clicks.
